PROFESSIONAL SUMMARY

Mannheim M.Sc. graduate and Accenture Specialist with 3.5 years of experience bridging financial data models to drive profitability, risk mitigation. Proven track record in developing Agentic AI pipelines & automated data solutions.

AI & DATA PROJECTS

AI Credit Assessor · Python, XGBoost, SHAP, GPT-4o-mini, Streamlit · [\[Github\]](#) XGBoost credit risk model with SHAP explainability, LLM-generated memos, counterfactual approval path & batch scoring. ROC-AUC 0.806, Gini 0.612.

MDM Agent · Python, Streamlit, GPT-4o-mini, Tavily, GLEIF LEI · [\[Github\]](#) Agentic AI that resolves master data entities via web search, legal entity verification, and fuzzy name matching; improved completeness from 41% to 82%.

EDUCATION

2020/09 - 2022/07	Mannheim University	BWL (Finance, Banking & Insurance)	M.Sc
2016/09 - 2020/07	SUIBE	Financial Engineering	B.Sc
2018/09 – 2019/01	Dublin City University	International Business	Exchange

WORK & INTERNSHIP

2022/09 – Now	Accenture	Financial Data Modelling Specialist	Frankfurt
---------------	-----------	-------------------------------------	-----------

Department: Deal Shaping & Pricing – Financial Data Modelling

- **Data-Driven Modelling:** Developed and implemented complex financial simulations for 20+ large-scale international projects, ensuring US GAAP compliance, mitigating commercial risks and increasing profitability.
- **Strategy & Visualization:** Designed and presented 12+ financial analysis results to leadership, translating complex deal structures into actionable strategic insights and increasing decision efficiency by 30%.
- **Collaboration:** Partnered with Sales, Legal and Solution teams to shape deals with business needs & targets.

2022/01 – 2022/02	Zhongan Insurance	Risk Strategy Intern	Shanghai
-------------------	-------------------	----------------------	----------

Department: Risk Management – Risk Analysis & Visualization

- **Cloud Data Engineering:** Optimized Azure data pipelines for customer data validation, preprocessing +20%.
- **Predictive Analytics:** Applied Logistic Regression, Decision Tree models in Python to identify high-risk customer.

2021/08 – 2022/01	Henkel	Data Analyst Intern	Shanghai
-------------------	--------	---------------------	----------

Department: AMA Marketing & Strategy - APAC Strategic Pricing Team

- **ETL & BI Automation:** Built data pipelines in Azure Data Factory and Databricks; automated sales performance dashboards in Power BI to track multi-channel performance, reducing manual reporting effort by 50%.
- **Predictive Analytics:** Developed SQL/Python predictive models to optimize marketing performance by 20%.

2021/02 - 2021/07	Chanel	Sales Data Analyst Intern	Shanghai
-------------------	--------	---------------------------	----------

Department: Sales Operation & Administration

- **Data Analysis:** Conducted in-depth sales analysis, 24 Tableau reports to support two major sales campaigns
- **Dashboard & Automation:** built and automated BA performance template in Excel (efficiency + 50%).

TECHNICAL SKILLS & CERTIFICATIONS

Programming & Data: Python (Pandas, Numpy, Scikit-learn, OpenAI, Matplotlib), SQL, MATLAB

AI & ML: Agentic AI, RAG, XGBoost, Classification, Regression, Monte Carlo

Cloud & Visualization: Azure Data Factory, Databricks, Tableau, Power BI, Matplotlib, Streamlit

Language: English (C2), German (B2), Italian (B1)

Certifications: Agentic AI, AI Trading, Google Data Analytics, FRM (II), CFA (I), Udacity Data Scientist

BERUFSPROFIL

Ergebnisorientierte M.Sc. Absolventin der Universität Mannheim und Accenture Spezialistin mit 3,5 Jahren Erfahrung an der Schnittstelle zwischen Finanzlogik und Data Science. Nachgewiesene Erfolge in der Entwicklung von Agentic AI Pipelines und automatisierten Datenlösungen zur Steigerung der Rentabilität und Prozesseffizienz.

KI- & DATENPROJEKTE

KI-Kreditbewerter [[Github](#)]: Entwicklung eines End-to-End XGBoost-Kreditrisikomodell mit SHAP-Erklärbarkeit, LLM-generierten Memos, kontrafaktischem Genehmigungspfad und Batch-Scoring. ROC-AUC 0,806, Gini 0,612.

MDM Agent (Agentic AI) [[Github](#)]: Entwicklung einer autonomen Python-Pipeline mit GPT-4o-mini und Tavily zur B2B-Datenanreicherung. Steigerung der Datenvollständigkeit von 41% auf 82%.

EDUCATION

2020/09 - 2022/07	Universität Mannheim	BWL (Finance, Banking & Insurance)	M.Sc
2016/09 - 2020/07	SUIBE	Financial Engineering	B.Sc
2018/09 - 2019/01	Dublin City University	International Business	Exchange

BERUFSERFAHRUNG

2022/09 – Heute	Accenture	Financial Data Modelling Specialist	Frankfurt
-----------------	-----------	-------------------------------------	-----------

Abteilung: Deal Shaping & Pricing – Financial Data Modelling

- **Datenbasierte Modellierung:** Entwicklung und Implementierung komplexer Finanzsimulationen für über 20 internationale Großprojekte zur Sicherstellung der US-GAAP-Konformität und Steigerung der Profitabilität.
- **Strategie & Visualisierung:** Design und Präsentation von über 12 Finanzanalysen für die Führungsebene; Transformation komplexer Deal-Strukturen in strategische Erkenntnisse, Entscheidungseffizienz +30%.
- **Collaboration:** Zusammenarbeit zur bedarfsgerechten Gestaltung kommerzieller Deal-Strukturen.

2022/01 – 2022/02	Zhongan Insurance	Risk Strategy Intern	Shanghai
-------------------	-------------------	----------------------	----------

Abteilung: Risk Management – Risk Analysis & Visualization

- **Cloud DE:** Optimierung von Azure-Datenpipelines zur Validierung von Kundendaten; Effizienz +20%.
- **Predictive Analytics:** Logistic Regression, Decision Tree in Python zur Identifikation von Hochrisikokunden.

2021/08 – 2022/01	Henkel	Data Analyst Intern	Shanghai
-------------------	--------	---------------------	----------

Abteilung: AMA Marketing & Strategy - APAC Strategic Pricing Team

- **ETL, BI-Automatisierung:** Aufbau von Datenpipelines in Azure Data Factory und Databricks; Automatisierung von Dashboards in Power BI zur Überwachung der Multi-Channel-Performance (-50% manueller Aufwand).
- **Predictive Analytics:** Entwicklung prädiktiver SQL/Python-Modelle, Marketing-Performance um 20%.

2021/02 - 2021/07	Chanel	Sales Data Analyst Intern	Shanghai
-------------------	--------	---------------------------	----------

Abteilung: Sales Operation & Administration

- **Datenanalyse & Reporting:** Fundierter Vertriebsanalysen, 24 Tableau-Berichten von Kampagnen.
- **Automatisierung:** Entwicklung automatisierter Performance-Vorlagen in Excel (+50% Effizienz).

TECHNICAL SKILLS & CERTIFICATIONS

Programmierung : Python (Pandas, Numpy, Scikit-learn, OpenAI, Matplotlib), SQL, MATLAB

KI & ML: Agentic AI, RAG, XGBoost, Classification, Regression, Monte Carlo

Cloud & Visualisierung : Azure Data Factory, Databricks, Tableau, Power BI, Matplotlib, Streamlit

Sprachen: Englisch (C2), Deutsch (B2), Italienisch (B1), Mandarin (Muttersprache)

Zertifikate: Agentic AI, AI Trading, Google Data Analytics, FRM (II), CFA (I), Udacity Data Scientist
